GOOGLE CAREER CERTIFICATE SCHOLARSHIP FOR PAKISTANI STUDENTS

Google Career Certificate Scholarship is announced for Pakistani students. It is an excellent opportunity for Pakistani students (both male and female students) who are looking for a Google certification that too free of cost. Google certification will help students to prepare for professional careers in a short time without any prior experience.

Students interested in learning new skills from the comfort of their homes are encouraged to apply for the **Google certification courses**. All the courses offered under this program are free of cost. Furthermore, the registration process is online; students only need to create their profile and enroll for the course. Moreover, students must allocate ten hours for the course weekly to complete the course they enrolled for.

Free online courses are offered in different sectors, including IT support, project management, data analysis, UX design, IT automation, digital marketing, and e-commerce. All students are encouraged to enroll in these programs and get a chance to update their CVs with Google certification. The Google certification courses are online. A recent study shows that 57% of the population of Pakistani youth started to connect to the Internet. This shows that the right skills and use of the internet can impact the nation as a whole; therefore, students must invest their time and efforts in learning skills that can help them succeed in the future.

No one should miss this opportunity to learn job-ready skills with Google by receiving professional training offered by Google. The good thing about the Google career certificate scholarship for **skill development courses** is whether you are new to some field or don't have a relevant academic background, you can still enroll for the course.

In this era of digitalization, limited skills are never enough; young people need to stay updated with the fast-paced trendy world. You must learn new skills to stay ahead in the race. And when you have an opportunity to learn new skills that too for free without spending a penny, you must not miss the opportunity. So, do not waste your time and apply for the Google Career Certificate Scholarship now!

Then start looking up roles you would like to get or companies you would like to work for relating to the skills you have acquired, and when you see a role that you like the sound of, apply.

TECH VALLEY

About

Bringing together the public and private sectors of Pakistan through innovation and technology. At Tech Valley, we are continuously working to bridge the gap between academia, industry, and the government with the help of technology and innovation. Our projects focus on encouraging digitization of the government sector, as well as linking the current businesses with the respective ministries to boost the social impact.

Our Mission

We use technology to help people build successful businesses and in the process, we aim to increase positive social interaction. Our mission was to transform the entrepreneurial ecosystem of the mountainous regions working in 6 domains:

- Entrepreneurship
- Capacity building
- Education
- Government engagement
- Technology
- Tourism.

Our Journey

Tech Valley was founded in 2015, to empower the tech-talent of the Northern Areas of Khyber Pakhtunkhwa and Gilgit /Baltistan.

At Tech Valley we work with private government and international organizations on numerous educational tech and incubation initiatives. We help companies engage and work directly with the public sector to harness the power of social impact programs.
